

## VORT HR 300 NETI (10935)

### GENERAL DATA

- Specific version for Italian and Export markets.
- Expanded polypropylene (PPE) casing.
- Plastic resin front panel, polished finish.
- Connecting outlets for pipes with a nominal diameter of 125 mm.
- 2 EC (brushless) motors with shafts mounted on ball bearings each combined with a centrifugal impeller with forward blades; 3 speeds independently adjustable at the time of installation.
- High efficiency plastic counter-current flow type heat exchanger (PS).
- Automatic by-pass for free-cooling (manual operation allowed as an alternative).
- Filters ePM10 50% (M5) and Coarse 65% (G4), placed respectively at the entry and expulsion channels. The blocking status of the filters and the need for maintenance are visually indicated on the control panel on the machine.
- Control panel placed on the front cover that allows:
  - The initial configuration of the product;
  - The manual setting of the operating mode;
  - The automatic management of the product and the monitoring of its correct functioning;
  - The system diagnostics;
  - The constant monitoring of the condition of the filters and the indication of the need for their maintenance/ replacement;
  - The update of the installed firmware release.
- Support bracket for integrated wall installation in the product.
